IN THE SPECIFICATION

Please amend the specification on page 50, fifth paragraph as below:

The invention also relates to clothes <u>or masks</u> containing the components of the present invention. Such clothes <u>or masks</u> will indicate external irradiation by an irreversible color change, e.g. when such clothes are sterilized for instance by gamma-irradiation. Another instance is the use of such clothes <u>or masks</u> in nuclear power stations and nuclear recovery/storage buildings, as protection cloths, e.g. for working staff or civil defense personnel, in case of accident or nuclear attack.
